

Elections to the Academic Senate of Charles University

I want to be a member of the Academic Senate because:

I want to help the newly elected University's management to create even fairer University for both academics and students – the inclusive one, with equal opportunities for all, zero tolerance to harassment or bullying, with a strong consulting centre, with a bigger capacity for psychological consulting.

I want University to fully use its potential of diversity and to work harder on modern, prestigious, interdisciplinary and fully internationalised curriculum connected to the practice.

I want the PR to be improved, evenly divided between **student recruitment and information about University's researchers and their contribution to the society.**

And last but not least, I do not want to observe how far behind we are in digitisation of various agendas in comparison to (not only) foreign universities.

If you are interested in my programme, please, support me in the electronic elections 24th – 25th November 2021.

doc. PhDr. Alice Němcová Tejkalová, Ph.D.
