

Elections to the Academic Senate of Charles University

As a member of the Academic Senate of Charles University I want to:

Be an extended arm of the faculty and our small faculty Academic Senate, of which I am a member. Through this connection, I can help our Senate and faculty leadership **respond more quickly to what is happening at the university level and, in turn, bring topics from our faculty to the Grand Senate.**

Work on digitalization with an emphasis on significant improvements to the Student Information System (SIS), which I consider absolutely essential.

Support the creation of a university institute of the Student Ombudsman. I have been directly involved in the implementation of this office at our faculty and can thus pass on my experience and feedback from students with ideas on how to make it work best.

Improve communication from the university towards faculties and students. I will demand as much transparency as possible from the new leadership headed by the Rector.

The election is online, you will receive an election voucher in your faculty email. Students vote for students only, lecturers vote for lecturers.

Bc. Jan Křovák
