### Contractor: Cyber Investigator

**Role:**

Cyber Investigator

**Area of focus:**

Cyber threat and risk analysis on private, public, and individual targets in multiple European countries; penetration testing, protection, and resilience design.

**Job Description:**

The successful Cyber Investigator (CI) will be able to assess cyber threats facing clients in diverse domains. The CI is expected to be creative and innovative in planning, creating, and implementing investigative and/or penetration methods. The CI will identify specific risks through passive and/or active investigation, individually or as a part of an investigative team. Further, the CI will be asked to design protection and resilience solutions, whilst implementation of these is left upon the client. The CI is expected to work remotely, however, for many projects, the CI will be asked to travel and work on-site.

**Expected skills:**

The successful candidate will have the expert and the technical skills necessary to perform independently and in team the tasks required of the CI role. Further, knowledge of foreign languages will be advantageous.

**Type:**

Free-lance

**Location:**

Flexible

**Compensation:**

Highly competitive, project-based

**Starting date:**

June 2021

**About PRINCEPS Advisory:**

PRINCEPS Advisory is a boutique business intelligence and political risk firm based in Prague with operations across Europe. It offers uniquely personalized services to clients

# PRINCEPS

in the highest echelons of both the public and the private respective spheres. PRINCEPS's main services cover five domains: (1) Due Diligence; (2) Information Security; (3) Competitive Intelligence; (4) Advocacy and Coalition Building; (5) Reputation Management. Working shoulder to shoulder with clients, on-site and behind-the-scenes, PRINCEPS unites the what, the how, and the who, to support its clients' assets, influence, and reputation.
