E.g. a student plans to start their placement from 1st January 2026. They did not apply for the placement in the relevant application period (15th August 2025). Therefore they apply in the next application period (15th November 2025). This postponement means that they will be financially supported only from February, since the financial support from January cannot be drawn anymore.

12. The Erasmus+ mobility participant must have an "active student status" throughout their whole stay and fulfil the obligations arising from this.

13. Joint and double degree students are required to provide confirmation from their universities of the exact time of the Erasmus+ stays abroad already taken in addition to the documents mentioned below.
