Manifesto on EUR Student Wellbeing

Empower the Student Wellbeing Project to the SW Manifesto. Scan the QR code.

Explanation
The aim of the Student Wellbeing Manifesto is to create a shared vision within EUR. The Manifesto was signed by the Rector and the Deans after the opening ceremony of the 2022-2023 Academic Year.

Erasmus University Rotterdam believes that as a knowledge institution it has a responsibility for addressing modern complex societal challenges. Our mission is to create positive societal impact. To achieve this, we focus on our students, the future generation, creating society and the positive impact.

The EUR approach to promote the wellbeing of our students is driven by the following core values:

- Person-centredness
- Inclusivity
- Accessibility
- Based on scientific evidence
- Innovation
- Transparency in goals and outcomes
- Free of charge

These EUR values are used consistently in the concretisation of the EUR student wellbeing into actions, services, tools, and policies, based on the overarching goals.

1. **FOCUS ON STUDENT SUCCESS:** a cultural transition from study success to student wellbeing is paramount.

2. **NORMALIZING THE FOCUS ON WELLBEING:** a key goal of including wellbeing in the university involves normalizing the need for time, effort, attention, and care for everybody's personal development and wellbeing.

3. **FROM AND FOR ALL STUDENTS:** we take a bottom-up approach, meaning the university actively listens to the voices of its students, and that their needs and preferences are at the heart of the creation of tools and services supporting their wellbeing.

4. **UNIVERSITY-WIDE APPROACH:** student wellbeing is structurally embedded in EUR strategy, policies and plans (e.g., education, support services, education, training).

5. **VARIETY OF SERVICES:** free tools and services are provided to students for all phases of their journey into cultivating their personal development and wellbeing (see time and at year round).

6. **TIMELY SUPPORT:** Students should be able to access the support they need when they need it, implying that EUR wellbeing services need to be flexible and accessible at all times.

7. **EVIDENCE-BASED (IMAGINATION):** All services, tools, activities, and policies offered to students are based on scientific insights and empirical evidence and are designed to be implemented in their design and implementation.
