IMPORTANT NOTE FROM THE INTERNATIONAL OFFICE COORDINATORS

On Friday, 30 January, **another system check will take place** to confirm whether all students completed **the online enrollment via ID verification (or emergency method)** and **gained their SIS login data (password)**. Should you fail to set up your password for SIS by then, you will be contacted by the IO.

It is most important that you start your ID verification immediately to set up your password. **Without SIS access, you will not be able to register for courses on 5 February from 11:00 AM CET.**

Course registration is online and works on a *first come, first served* basis, which means **the sooner you start, the better chance you have for getting the course you want/need.**

Colleagues from the **ServiceDesk** team are here to help you, but you must start ASAP and provide them with screenshots and precise information.
